

Survey Input

Clyde Public Library Asks for Survey Input

The Big County Digital consortium is considering a change from Overdrive to Bibliotheca cloudLibrary. It's being discussed by all the libraries in our consortium at this time. What is being proposed is the libraries will receive less expensive fees and have access to a much larger group collection of materials. If we switch, it would not happen until Jan. 2022. Would you take a moment to complete a survey regarding this?
